ANNOUNCEMENTS PAGE 4

This is our 21st edition of Good News Sunday Fairfield. We want to continue bringing you good news and heartwarming stories in these difficult times.

A single mom's little son, Jerico struggled with Autism. Jerico had Autism when he was age two. One day he got so sick he went 12 days without eating and 5 days without drinking. The one thing that he could eat normally were waffles and his favorite brand was discontinued. So Jerico's mom, Jenna, did a GoFundMe to try to find her son's waffles to make him happy. When the CEO/Co-founder of Nature's Path the waffle brand heard about the news she wanted to help. So, she searched around the country and found every extra waffle that they had and sent to them. The CEO did not stop there. She had her team adapt the commercial recipe so Jerico's mom could make it for him when he ran out. They were really happy and grateful for their kindness.

8-year-old Jaxson Dempsey saved his little sister who was only 20 months old. Jaxson liked to watch TV and he watches a show called "The Substitutes" on Nickelodeon. In the first episode the famous WWE star champion John Cena was on it! He talked about how to save somebody in a choking situation. Choking can be dangerous so knowing how to help someone who is choking is important. One day they picked up McDonalds and while his dad was driving Jaxson saw his sister choking. Since his dad was driving, Jaxson knew he had to save her so he started to pat her back to get the Chicken nugget out. He finally did and it was close. Jaxson was a hero. News spread about what happened. Soon enough John Cena heard the news and thanked him for being such a hero. Jaxson also had a parade in his neighborhood for him being a brave hero.

A state trooper Joshua Morris loved playing Basketball with kids. One of the video's went viral when they filmed them playing against each other. One of his "biggest fans", Allen started to say "that's Curry" and that really went viral. Then Morris bought Allen Curry sneakers because he was so grateful for him. Allen was so excited!

Climate Change – part I

We are starting a three-part series on climate change. This week will be the causes, next week will be effects and lastly, we will talk about how to stop it.

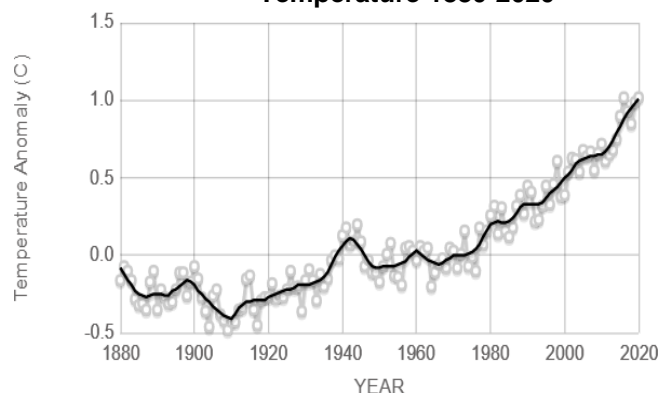

Climate change is when the earth gets hotter and the weather gets stronger. The climate we are talking about is the overall weather on all of earth for a very extended period of time not just one season.

The earth is getting hotter because of more greenhouse gasses in the atmosphere. Greenhouse gasses let sunlight go through the atmosphere but then trap the heat from going back out like a greenhouse. While this effect is vital to keeping the earth habitable too much of it is bad.

Carbon dioxide, water vapor, methane and nitrous oxide are some of the greenhouse gases. Carbon dioxide levels have increased 47% since the industrial revolution. Carbon dioxide “is the most important long-lived “forcing” of climate change” according to NASA. Water vapor is the most abundant greenhouse gas. The more of it forms the warmer the earth gets but it also makes clouds and rain thus it is a feedback mechanism to let us know how bad it’s getting. Methane is very strong and traps a lot of heat but it is not as abundant as other greenhouse gases. Nitrous oxide is made by fertilizers and more.

Burning fossil fuel makes a lot of greenhouse gases and to a lesser extent agriculture and clearing of land also makes it worse. Like burning forests. Because when they burn the trees it releases all the carbon they stored. And worse usually the land is used for animals and a lot of farm animals release methane in the air. Scientists have researched if the sun is causing the rising temperatures but after measuring the sun’s rays they concluded that this is not affecting the rising temperatures.

Quote of the week.

"The world will not be destroyed by those who do evil, but by those who watch them without doing anything."

- Albert Einstein

"A nation that destroys its soils destroys itself. Forests are the lungs of our land, purifying the air and giving fresh strength to our people."

- Franklin D. Roosevelt

Creative Coding!!! Grades 1-3. Teachers: Emily (8), Jacqueline (8), Reese (9) and Anna (9)

Our classes will be on Zoom! Every child in the class will make at least one game every class.

The teachers will teach your kid how to code amazing games! Your child will be on a screen but learning. You can go to [Home | Creative coding \(wixsite.com\)](https://www.wixsite.com/home-creative-coding) to sign up.

The prices are only \$5 for a private lesson and \$2 for a group class.

Mathnasium is a customized math tutoring program. We have used it for years and we love it. The instructors help you with your questions. We found that the customized curriculum helped a lot with school. You can do it online or in person. If you are interested you can go to 1700 Post Rd #E-4, Fairfield, CT 06824 or to learn more and book an appointment go to [Math Tutoring that Works! - Mathnasium of Fairfield - The Math Learning Center](#).

We are now doing an audible version of Good News Sunday Fairfield! The recordings of each edition will be posted on the website [audio edition — Good News Sunday Fairfield](#) and most streaming services.

Would your business benefit from reaching lots of people in Fairfield?

If so, place an ad in our newsletter. For a small amount you can get lots of exposure to the Fairfield community and help us to continue bringing you good news. If you are interested please email goodnewssundayfairfield@gmail.com

ABOUT US

We hope you enjoyed this newsletter. Prepared by Sofia (9) and Luke (11). If you like this, if you want to receive in digital format or if you don't want to receive it all, please email us at goodnewssundayfairfield@gmail.com. Follow us: @GoodNewsSundayFairfield and visit our website www.goodnewssundayfairfield.com

Have a great Sunday!
